

Cabela's National Team Championship Qualifying Side Pot Rules & Example Payouts

All TWF affiliated clubs or any Active TWF member may host as many Cabela's National Team Championship side pots as they wish; there's no limit. These **MUST** be actual competitive fishing events with verifiable results which will be checked and verified. Hold these side-pot qualifying events in addition to and right along-side any regularly scheduled club events, as stand-alone events, or in conjunction with a charity event! Register your walleye club (if it's not already a TWF club) at walleyefederation.com then, click manage club roster to sign up a minimum of 12 members with TWF and you're active with full club benefits and insurance. (Call 580.765.9031 for help.)

To register & hold a TWF Side Pot to get qualified for the Cabela's National Team Championship all you do is:

1. Be an active TWF club or TWF member.
2. Decide which events you've planned (or a new one) that will have a NTC side-pot attached to it. Choose one of your current events or choose them all! Or make your side pot event a stand-alone event. YOUR choice!
3. You **MUST** register your side pot event(s) at walleyefederation.com
4. You **MUST** have your club members/participants go to walleyefederation.com and register ONLINE for YOUR NTC side pot event. (**NOTE:** Participants must register online, we do allow late entries at the ramp but you must enter them online ASAP if you take entries at the ramp. (Full data is required, be sure you know what info you need from ramp entries.) NO EXCEPTIONS)
5. All participants in these direct NTC qualifiers must be TWF members or join at time of registration. ALL your club members do NOT have to be TWF members to fish your club events only those fishing the side pot events.
6. Weigh in all your anglers just like you normally do. Highest finishing team registered in your side pot event wins that side pot and earns a Cabela's NTC spot! That's it! Simple, easy, no extra events and no extra dues for those wanting to only fish your club events. No added events to run, unless you wish too! More support and drive members to your TWF affiliated club! Below are some side pot payout examples, all of which are a minimum of 100% payback in cash & prizes. **Anything less than 10 teams registered will be refunded or rescheduled** at your option. The 20 team example below shows a full Cabela's NTC package payout at the \$50 entry fee per team.
7. DON'T forget we want all your club event notices, press and results, side pot or not, to post on walleyefederation.com to help promote your club and all the great things you are doing! Send to matt@federationangler.com anytime!

The purpose here is NOT to prohibit anyone from fishing (quite the opposite). You don't have to make ANY changes to your club events, entry fees or club dues. The side pot qualifiers are voluntary and simply make every Cabela's NTC spot an "earned" spot and paid for as much as possible.
